

## Profile of Democratic primary voters

The Times' exit poll reveals how various groups of voters in Tuesday's Democratic primary election cast their ballots for governor and attorney general. The columns of percentages on the right read across. For example, among all voters in the Democratic primary, 48% voted for Angelides, 43% for Westly, 63% for Brown, and 37% for Delgadillo.

How the poll was conducted: The Times Poll interviewed 2,833 voters (including 848 voting in the Republican primary and 1,784 in the Democratic primary) as they exited 64 polling places statewide Tuesday. California has a modified open primary in which declined-to-state voters are permitted to vote in partisan primaries; they are included among the poll's Democratic and Republican primary voters. Precincts were chosen based on the pattern of turnout in past statewide primary elections. The survey was a self-administered, confidential questionnaire in English and Spanish. The margin of sampling error for the entire sample of primary voters statewide is plus or minus 2 percentage points; for Democratic and Republican primary voters it is 3 points. For some subgroups, the error margin may be somewhat higher. The survey was adjusted to account for absentee voters and those who declined to participate when approached using actual returns, demographic estimates collected by interviewers, and a pre-election survey of absentee voters. Interviews at the precinct level were conducted by Davis Research of Calabasas.
